

January 2023

Product Specification: Beck 16.5 lb. (7,5 kg) Beck Liner®**Measurements:** 481 x 253 x 60 mm.**Liner weight:** Average weight: 145g ± 6g**Block weight:** 16,5lbs or 7,484 kg ± 55g / Estimated Block dimensions: 482 x 254 x 62,7 mm.
(9 x 10 x 2,5 inches)**Frame dimensions :** 485 x 255 x 59 mm**Intended use:** As a protecting inner liner when freezing and storing human foodstuffs, mainly fish, chicken, vegetables and fruits in blocks.

The Beck Liner is suitable for packaging of fresh or single frozen foodstuff at a temperature below -18°C.
Freezing to be commenced no later than 60 minutes from packing. However the recommendation is to start freezing within 30 minutes.
The temperature of the frozen foodstuff must be below -18°C.

The frozen foodstuff **must not** be defrosted in contact with the Liner.

The liners are **NOT** reusable.

How to use the liner: Please refer to the Beck Food Block Manual. (Available on: www.beck-liner.com)
Beck Pack System will not guarantee for the liner performance if the wax barrier is broken.**Material components:**

- **Cardboard:** Paper consisting of recycled cellulose fibres
Steering chemicals such as:
Starch, Sizing agents, dyes and process additives
All based on products free from additives of animal origin.
- **Wax Coating:** Mainly hydrocarbon wax with max. 0.5% oil content (measured as MEK solubles), and fully hydro-treated, and Ethylene-Vinyl-Acetate-copolymer (EVA), and Butylated Hydroxy Toluene (BHT) 0.005%
All based on products free from additives of animal origin

Storage: Keep in unbroken plastic sealing and away from direct sun and store at max. heat of 40° C / 104° F at relative humidity between 50-70%.
Before use you shall strip the outer packaging of the pallets and load the liners on your internal pallets outside your processing area in order to avoid possible contamination to your foodstuffs.**Durability:** The lifetime of the Beck Liner from the day of production is 5 years when stored according to the terms on our product specifications.

**Qualities:**

- **FSSC 22000** Food Safety System Certification (ISO 9001, ISO 22000, ISO/TS 22002-4)
- Conform to the European guideline **1935/2004/EC, 94/62/EC and No. 2023/2006/EC**
- Composting recovery or energy recovery according to European guideline 94/62/EC.
- MOSH: Comply with the German mineral oil ordinance (DRAFT), the specific migration of MOAH is below the proposed specific migration limit for MOAH.
- Migration complies with the EU Regulation **10/2011 incl. amendments** for plastic materials.
- FSC (mark of responsible forestry): All our paper suppliers are FSC certified.
- Meet the requirements of the **FDA** (21 CFR § 172.886/888, § 176.170, § 176.180) and **BfR** regulations for packaging and additives in direct contact with foodstuffs.
- Microwave oven can only be used for easy release of liner from the frozen foodstuff. **Not for defrosting.**
- Ensure smooth block surfaces.
- Stable in the range -40°C to +40° C. / - 40°F to +104° F
- Protects the foodstuffs against dehydration and damages.
- Each liner has a traceability code printed on the outside of the liner.
